## WORK EXPERIENCE

Software Engineer Intern

**Dialexa, an IBM Company**

📅 May 2023 – August 2023 📍 Dallas, TX

- Completed User Story at a priority 1-2 level and sought help from my coworkers if needed.
- Worked on full stack tickets and tracked my predicted time to complete them.
- Wrote acceptance criteria for stories I completed.

## Computer Science Teaching Assistant

**Texas A&M University**

📅 December 2022 - Current 📍 College Station, TX

- Lead labs in 300 level courses such as computer organization.
- Assisted the professor, Dr. Leyk, in organizing staff schedules.
- Created presentations and presented them to staff.
- Held office hours for students to ask questions about their computer science course material.

## Quality Engineer Intern

**Dialexa**

📅 May 2022 – August 2022 📍 Dallas, TX

- Took part in Retro's and made sure I thank and appreciate all my coworkers who I saw work hard or who helped and supported me.
- Paired developers so that we can work on a bug or story together and write code accurately and efficiently.
- Called out bugs even when it might be difficult to bring them up.

## Software Engineer Intern

**VEX Robotics**

📅 June 2020 – August 2020 📍 Greenville, TX

- Programmed in C++ and python the autonomy and drivetrain of 2020 HeroBot.
- Documented C++, Python, and block code for the 2020 IQ bot.
- Created sound effects for 2020 123 bot.

## General Intern

**Maple Mark Bank**

📅 June 2019 – August 2019 📍 Dallas, TX

- Created a workflow with client forms converting manual into digital applications, created excel sheets, and data entry.
